SKILLS:

- Programming:
 - I have been programming since receiving an old desktop when I was 11 years old. Recently become focused on learning C++ as a new language.
 - Made basic useful terminal based programs using multiple different languages. Also have been starting work on larger, more specific projects using a variety of packages such as a file manager in Python. I have used a multitude of languages to create these programs and websites. These include HTML, CSS, C++ and Python.
 - I am also currently enrolled in three online courses that I am working towards completing. These are on Python, C++ and C# and produce a certificate of completion. They cover a wide variety of topics including working with data files as well as Object-orientated design.
- Punctuality, this includes working on projects and managing my time in order to complete tasks within time frames.
- Problem solving ability that comes with programming skills.
- Good at working within team environment.

- Courteous, professional demeanour.
- Strong verbal communication skills.
- Flexible with working hours.
- Currently hold a provisional driver's licence with test dates pending
 - Have access to an insured vehicle upon acquisition of a full licence.

WORK HISTORY:

Joys Convenience Store

Shop Worker // Weymouth, Dorset // 2018 – 2020

I was a general worker/ cashier within the shop, I would stock produce, interact with customers and use the tills. On certain shifts, I would be running the shop for the day on my own and would lock up the premises at closing times.

The Fleet Inn

Waiting staff/ food runner // Gloucestershire, England // 2017-2018

Cleaning duties were shared by staff members during shifts, main duties involved running food to tables and serving customers at the bar.
